**Brioche Stitch:** In Two-Color Brioche Stitch, each row is worked twice. First, work the entire row with beige yarn, then slide the stitches back to the beginning of the needle and the same row is worked again with natural white yarn. These two rows worked with different colors, A and B, count as one row. In Brioche Stitch, both sides of the fabric look otherwise the same, but on the right side the natural white color dominates, and on the wrong side the beige color dominates.

**Gauge:** 18 sts and 22 rows = 10 cm. Make a swatch and change needle size if necessary to obtain the recommended gauge.
